

Town Board Work Session

April 2, 2026

Present: Supervisor Christine Stark, Councilman Dan Wiley, Councilman Bill Gould, Councilman Ron Jacobs, Councilwoman Mary Farrell, Highway Superintendent Bill Pond, Deputy Town Clerk Sam Jackson, Deputy Patty Bach

Letters of Concern – High Water Issues

Bill Gould stated he was waiting to hear back from his contact at DEC for their response.

Bill Pond has been in touch with NYS and DEC. Considering this issue as a Civil Dispute with neighbors and is out of municipalities hands.

Proposed Restroom Facility – Lease and Operating Costs

Looking for Volunteers to take on cleaning duties for this season- June, July, August & Sept. Looking for quotes on cleaning services for budget meeting. Rely on community members and employees to keep up on the cleanliness – Scott from town on his rounds and mowing check on restrooms, Board Members taking turns on cleaning, Village workers when doing their duties in town?? Dan brought in pictures of Clayton Restrooms and how they run on donations

Rehab of existing Chamber bathrooms are not feasible.

I wanted to share that Congresswoman Tenney's office called and our WD7 project made the cut and is part of their appropriations!!!! They put us through with the full 2 million request but it is unlikely we will get more than 1 million. Still a huge boost for the project. Hooray!

WD7 Resident List and Referendum Preparation

We are currently working on list of property owners within district

Sam Jackson, Deputy Town Clerk
